

Boot drying panel Eletron

QUALITY FEATURES

- completely made of stainless steel 1.4301
- rounded hangers / no dents or pressure marks
- delivered ready for use
- working in dry boots reduces number of staff away sick
- drying on a regular basis prolongs the life cycle of the boots
- maintenance-free
- 10 years full warranty
- can also be used for the drying of gloves
- low energy consumption: 17W / pair of boots
- ATTENTION! Minimum temperature required: + 15 °C!

The rounded hanger guarantees a perfect drying result both in the front and in the back part of the shoe. The special shape prevents the toppling over of the boots. Warm air rises inside the shoe and dries residual moisture in the shoe tips.

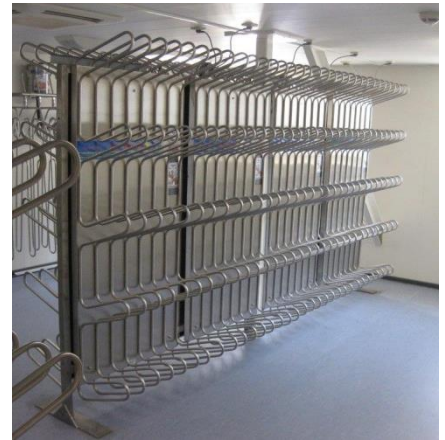

Dry shoes for motivated and satisfied employees!
